Employment and further study outcomes

In 2024, 84.9% of qualification completers had an improved employment status after training, similar to 2023.

91.4% of qualification completers were employed after training. Of these:

- 92.2% received at least one job-related benefit, similar to 2023.

73.9% of qualification completers were employed before training. Of these:

- 28.0% were employed at a higher skill level after training, similar to 2023.

26.1% of qualification completers were not employed before training. Of these:

- 79.2*% were employed after training, similar to 2023.

Table 2 Employment outcomes and benefits from training - qualification completers, 2024 (%)

Employment outcomes and benefits from training	Practical Outcomes Pty Ltd - 2024 estimate	Practical Outcomes Pty Ltd - 2024 margin of error	Students at private training providers - 2024 estimate	Students at private training providers - 2024 margin of error
Improved employment status after training	84.9	5.8	66.8	0.3
Employed after training	91.4	4.5	79.2	0.3
Of these: found the training relevant to their current job	90.5	4.9	78.1	0.3
Of these: received at least one job-related benefit	92.2	4.6	81.4	0.3
Employed before training	73.9	7.4	71.9	0.3
Of these: better job after training	47.6	10.0	34.3	0.4
Of these: employed at a higher skill level after training	28.0	9.3	14.3	0.3
Not employed before training	26.1	7.4	28.1	0.3
Of these: employed after training	79.2*	13.1	48.1	0.6

In 2024, 93.9% of qualification completers were employed or in further study after training, similar to 2023.

Table 3 Employment and further study outcomes - qualification completers 2024 (%)

Employment and further study outcomes	Practical Outcomes Pty Ltd - 2024 estimate	Practical Outcomes Pty Ltd - 2024 margin of error	Students at private training providers - 2024 estimate	Students at private training providers - 2024 margin of error
Commenced further study after training	48.3	8.2	30.8	0.3
Employed or in further study after training	93.9	3.8	85.8	0.2

Satisfaction with training

In 2024, 92.2% of qualification completers are satisfied with the training overall, similar to 2023.

Table 4 Satisfaction with and benefits from training - qualification completers 2024 (%)

Satisfaction with and benefits from training	Practical Outcomes Pty Ltd - 2024 estimate	Practical Outcomes Pty Ltd - 2024 margin of error	Students at private training providers - 2024 estimate	Students at private training providers - 2024 margin of error
Achieved main reason for doing the training	95.1	3.4	88.6	0.2
Received at least one personal benefit	96.1	3.3	92.0	0.2
Developed problem-solving skills	84.9	5.9	81.4	0.2
Improved writing skills	67.0	7.7	57.8	0.3
Improved numerical skills	45.2	8.3	50.9	0.3
Satisfied with teaching	89.8	5.0	88.2	0.2
Satisfied with assessment	94.6	3.7	90.1	0.2
Satisfied with the training overall	92.2	4.5	90.0	0.2
Likely to recommend the training	90.9	4.6	87.4	0.2

In 2024, 87.0% of qualification completers are likely to recommend the training provider, similar to 2023.

Table 5 Satisfaction with training provider - qualification completers 2024 (%)

Satisfaction with training provider	Practical Outcomes Pty Ltd - 2024 estimate	Practical Outcomes Pty Ltd - 2024 margin of error	Students at private training providers - 2024 estimate	Students at private training providers - 2024 margin of error
Satisfied with the facilities	77.4	7.5	85.3	0.2
Satisfied with the learning resources	86.1	5.7	85.4	0.2
Satisfied with the location of the training provider	79.4	7.5	85.5	0.2
Satisfied with support services	84.5	6.3	81.9	0.3
Likely to recommend the training provider	87.0	5.4	85.5	0.2

Key outcomes by student and training characteristics

Data are only available for the student group 'qualification completers' and for RTOs with 300 or more qualification completer responses.

Data are only available for the student group 'qualification completers' and for RTOs with 300 or more qualification completer responses.

Response rate and technical information

The sample for the National Student Outcomes Survey is selected from the National VET Provider and National VET in Schools collections. The response rate was 29.9% for qualification completers at Practical Outcomes Pty Ltd.

Survey responses are weighted to population benchmarks from the national VET data collections. As the estimates from the National Student Outcomes Survey are based on information provided by a sample rather than on a population, they are subject to sampling variability; that is, they may differ from the statistics that would have been produced had all students been included and responded to the survey.

In this product we present margins of error. The margin of error is a measure of how much sampling variability there is. The smaller the margin of error, the more accurate the estimate. The margin of error is calculated such that there is a 95% chance that the estimate \pm margin of error contains the true value.

Refer to the supporting documentation in the Download section below for important information on interpreting survey data (specifically understanding the margins of error presented in this product).

Data treatment

A dash (-) or na indicates the outcome is 'not applicable'.

An asterisk (*) indicates the estimate has a margin of error greater than or equal to 10% and therefore should be used with caution.

An np indicates the data are 'not published'. NCVER does not report on estimates based on five or fewer respondents because the estimates are unreliable.
